DAYMARK™
High-Intensity Portable LED Headlight System
DAYMARK™
High-Intensity Portable LED Headlight System

Daymark™, BFW’s high intensity, compact portable LED headlight system, provides 5 levels of crisp, clean, daylight quality illumination up to 60,000 LUX with 5-hours of battery life at this highest setting. Its optic provides a fully adjustable 1-to-4-inch spot. The 2-button On-Off intensity control, accessible in the battery holster, and robust connector provide ergonomic ease of operation. A retrofit kit transforms our AtoN™ fiber optic headlight into this outstanding portable LED system. Daymark™ is designed to perform under rigorous use.

* LUX measured at 16” from the eye of the user to the field, optic fully opened – a true brightness measurement.
